

RISE & SHINE

RS3000 HYBRID LAMP STREET

- Led 30 watt
- Solar panel 43 watt
- Battery 192WH lithium LifePo4
- Battery recharge time 6 hours
- Battery power backup 3 days
- ip class ip66
- Material Aluminium
- Dimensions in millimetres: L.882xB.315xH.206
- Operating temp. -20 to +60
- Light colour tone kelvin 6500K optional
- Light intensity in lumen 3800
- Height of installation 5 to 6 metres
- Distance between masts 18 metres
- Mast diameter \varnothing 40 to \varnothing 80 millimetres
- Light sensor day and night/ auto on-off
- Certifications CE, ROHS, IES, TUV, MSDS, ISO 9001, IK08

Advantages:

When light is insufficient to charge the solar lamp's battery, it will automatically switch to accept normal AC current.

The lamp features a 12 metre 2x1 rubber cable, with a cable outlet in the middle of the mast adapter.

Expect power savings of 70% when using solar power.

All the lamp's internal and external nuts, bolts and washers are made of A4/316 stainless steel.
